FREE Added Benefits

Self Help Interface (120,000 Solutions)

Zurvita Tech members have access to our extensive knowledge base system with over 120,000 support tips and tools for both software and hardware issues. No more calling company to company to solve multiple problems. Our knowledge base system supports multiple companies and solutions.

Best Practices Assessment

This online assessment evaluates your computing environment and provides a series of recommendations on how to improve it. It takes as little as 5-10 minutes, depending on your needs, and provides you with a comprehensive recommendation that will greatly help you make technology decisions for your home, home business or small business environment.

AFFORDABLE 24/7
WORRY-FREE
TECH
ASSISTANCE
FOR YOUR COMPUTER PROBLEMS

Affordable 24/7 worry-free assistance for your home and business computer problems.

Enjoy Roadside Assistance Along the Information Superhighway!

Zurvita Tech provides worry-free technical support and computer problems assistance, eliminating the frustration associated with technology. As your 24/7 home and business technology solutions provider, Zurvita Tech can save you hundreds of dollars on IT costs and eliminate the headaches and hours of frustration associated with equipment set up, program updates, and new technology.

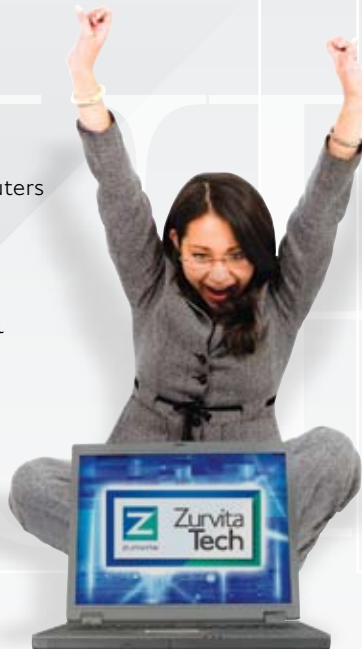

Why Zurvita TECH?

- 90% of home-computer users need technical support and have great difficulty getting help.
- Americans spend more time on computers than watching TV.
- Technology is more than computers-Internet, POS systems, software, printers, routers, encryption, networks, TVs, DVRs, mobile devices, data storage, etc.

Zurvita Tech offers members peace of mind by providing FREE and highly discounted rates on computer and technology support needs. As your 24/7 home and business technology solutions provider, we can save you thousands of dollars on IT costs and eliminate the headaches and frustrations associated with today's technology.

Let Zurvita Tech provide you with 24/7/365 certified technicians to help you over the phone or Internet (30min./mo) and to help you with problems such as::

- Software Installation
- Operating System Issues
- PC Maintenance
- Digital Music Problems
- Wireless Networks / Routers
- Printers / Scanners
- PC Support
- Internet / Email Issues
- Virus / Spyware Removal
- Data Backups
- Diagnostics
- Blackberry Problems
- Pop ups, Error Messages
- Slow Internet

100% Guarantee Remote & On-site Assistance

100% Guarantee Remote & On site Assistance

Sit back, relax and watch us fix the problem in minutes. Most of the time you won't even have to touch the keyboard to solve your problems. In most cases our technicians can remotely access your system through

100% secure, state-of-the-art technology to diagnose and fix your problems.

If we are not able to solve the problems remotely, we can dispatch one of over 10,000+ trained, insured technicians to visit your home or business.

DATA Backup - Secure Your Data and System

2 GB Remote FREE Data Backup and up to 68% off of additional data storage needs.

Have you ever experienced a system crash when you most needed information or have to make a presentation? Most of us manage our personal and professional lives electronically. Whether it's word documents, mp3s, photos, contact files, business inventory, or taxes, they are in our system.

Our remote, off site backup service ensures your electronic life will be intact when disaster strikes.

Advantages of Remote Backup

- 24/7 file access and recovery from any computer anywhere.
- Redundant storage to 2 data centers
- Multiple computers back up.
- It's off site - files are stored in separate physical locations hundreds of miles apart.
- It's secure - ByteHive uses 256 bit AES encryption (the US Military, top secret standard).
- It's flexible - you choose what to back up. With ByteHive, you can always access earlier versions.
- It's scalable - you never run out of storage space - it grows with you. No need to catalog endless CDs, change tapes, separate files or rush out to buy more storage capacity.
- It's automatic - files are backed up automatically, as often as you like. No more losing documents because you forgot to backup.
